

COMMON QUESTIONS

How much can I bet?

You can bet as much as you like. Wheels and boxes can be played for a \$1 per combination.

What if I notice a mistake on my ticket?

Always check your ticket for accuracy BEFORE you leave the mutuel window. Verify the track, performance date, the race, the type of bet and your selections. Once you leave the window, your tickets may not be canceled or exchanged.

Where do I cash my ticket?

Once the race is declared official, you can cash your tickets at any mutuel window. If you use a touch-tote betting machine, you must use a voucher or winning ticket and cash out with a teller.

When can I bet?

For horse wagering, you may bet on any race in the current program. For greyhound wagering, you can bet any race on the current program and the next performance. Be sure to tell the clerk what program and race number you are wagering on.

Can I cash a ticket from a previous day?

Winning tickets from a previous performance can be cashed at any mutuel window at any time during the live racing season.

Is tax withheld on my winnings?

By order of the IRS, a W-2G form must be filled out if you win more than \$600 or more at odds of 300-1 or greater. On winning payments of more than \$5,000 a 28% federal income tax and 4% Colorado state tax will be withheld. You must have a picture I.D. and one other form of identification.

PARI-MUTUEL WAGERING

Betting on horses and greyhounds involves pari-mutuel wagering, which means "betting among ourselves." In this type of betting, you are competing against other bettors, not against the track. The track simply acts as an agent in all transactions and has no interest in the outcome of the race.

ODDS AND PAYOFFS

Odds are displayed on the tote board before each race. Each runner is listed by its number with the win pool odds posted next to that number. The odds change before each race, based upon the amount of money being wagered on each horse/dog to win.

All odds listed on the board are odds of \$1. For a \$2 bet, simply double the amount. For example, if a runner is listed at 5-1 odds, the payoff on a \$2 bet would be approximately \$12. That's five times the amount plus your original \$2 back.

Odds and indicated pay-offs for a \$2 bet

Odds	Pays	Odds	Pays
1-5	\$2.40	7-2	\$9.00
2-5	\$2.80	4	\$10.00
1-2	\$3.00	9-2	\$11.00
3-5	\$3.20	5	\$12.00
4-5	\$3.60	6	\$14.00
1	\$4.00	7	\$16.00
6-5	\$4.40	8	\$18.00
7-5	\$4.80	9	\$20.00
3-2	\$5.00	10	\$22.00
8-5	\$5.20	12	\$26.00
9-5	\$5.60	15	\$32.00
2	\$6.00	8	\$38.00
5-2	\$7.00	20	\$42.00
3	\$8.00	25	\$52.00

PLACING A BET

Simply follow these steps when asking for your ticket:

1. The track you want
2. The amount of your bet
3. The type of bet
4. Your selections in the race

(please be sure to place all bets according your selections' numbers, not names).

You may place bets at any mutuel window or use our self-serve touch screens located near the mutuel tellers.

TYPES OF BETS

BASIC WAGERS

WIN

The first horse/dog across the finish line WINS. You collect if your selection finishes first.

PLACE

The second horse/dog across the finish line PLACES. You collect if your selection finishes first or second.

SHOW

The third dog/horse across the finish line SHOWS. You collect if your selection finishes first, second or third.

QUINELLA

This wager involves picking the first two finishers of a race in either order.

Example: If you think the #2 and the #6 will finish first and second, purchase a 2-6 quinella ticket. You win if the race finishes either 2-6 or 6-2.

DAILY DOUBLE

You must select the winners of two consecutive races to collect. Daily Double wagers must be made before the running of the first of the two races.

ADVANCED WAGERS

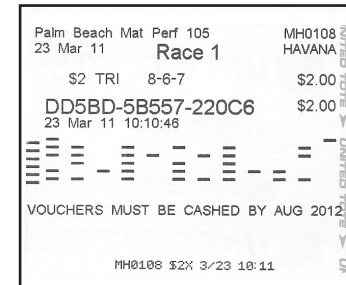

EXACTA

This bet is similar to a quinella, except you select the first two finishers in exact order.

TRIFECTA

To play a trifecta, you must select the first three finishers in exact order.

Example: On this ticket, the #8 must win, the #6 must place and the #7 must show for this to be a winning ticket.

SUPERFECTA

This bet requires you to select the first four finishers in exact order.

TRIPLE (PICK 3)

Select the winners of three consecutive races. The wager must be placed prior to the first of the three races.

MULTIPLE WAGERS

ACROSS THE BOARD

This bet combines the three individual bets to win, place, and show. If your selection wins, you collect on all three prices of win, place, and show. If your selection places, you collect on the place and show prices on your horse/dog. If your pick shows, you collect on the show price only. You can wager \$2 or more on a ticket, but your total cost will be three times the minimum amount.

BOXES

A wager can be "boxed" to create more opportunities for winning. Boxing a bet covers all the possible combinations in the bet, so the cost is more expensive than a straight wager.

This type of wager can be used with quinella, exacta, trifecta, or superfecta bets. You can purchase most boxes for a \$1 per combination, which cuts the box cost in half from a \$2 wager. Be aware though, that this also reduces the payoff to half of the posted payoff.

Example: To box a quinella, choose three or more selections.

If two of your selections finish first and second in any combination, you win. In a trifecta, you need all three selections to finish first, second and third in any order.

This ticket is a winner if the race finishes 1-4, 4-1, 1-8, 8-1, 4-8, or 8-4.

WHEELS

If you have a selection that you think will win the race, you can wheel this selection with other combinations. Your selection must finish in the position you have designated for you to win. The advantage of wheeling, or "keying" as it is also called, is that you get multiple combinations at a lower cost than boxing.

Example: To wheel in trifecta, select a horse/dog to win and two or more others. You win if your "key" selection finishes first, and two of the other choices finish second and third in either order. You can also key your selection to finish second or third.

This ticket is a winner if the race finishes 3-4-5, 3-4-6, 3-5-4, 3-5-6, 3-6-4, or 3-6-5.
